VOLUME CVI.--NO. 235. ALEXANDRIA, VA., WEDNESDAY EVENING, OCTOBER 4, 1905. PRICE 2 CENTS.

Let go or die. That's the alternative of the shipwrecked man with the money bags. A great many people have a like alternative before them. Business men come to a point where the doctor tells them that they must "let go or die." Probably he advised a sea voyage or mountain air. There's an obstinate cough that won't be shaken off. The lungs are weak and perhaps bleeding. There is emaciation and other symptoms of disease, which if unskilfully or improperly treated terminate in consumption.

Thousands of men and women in a like condition have found complete healing by the use of Dr. Pierce's Golden Medical Discovery.

"It gives me pleasure to send you this testimonial so that some other poor sufferer may be saved, as I was, by Dr. Pierce's Golden Medical Discovery," writes Geo. A. Thompson, of Sheldon Ave., Chatham, Ont., Canada. "I had a cough for years, expectorated a great deal, and was slowly failing. Was losing flesh every day. Lost in weight from 150 pounds down to 128. My flesh got soft and I had no strength. Did not say anything to any one but made up my mind that the end was not far off. One day my wife was reading in the 'Common Sense Medical Adviser' about Dr. Pierce's Golden Medical Discovery, and I said, *that* sounds more like common sense than anything else that I had heard. I at once bought a bottle of your famous remedy and before I had taken half of one bottle I felt better. Took thirteen bottles and it made a new man of me. I gained sixteen pounds and never have had a cough since. I feel splendid and give all the credit to your medicine."

Given away. The People's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing *only*. The book contains 1008 pages, over 700 illustrations and several colored plates. Send 21 one-cent stamps for the paper-bound book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Pierce's Pleasant Pellets cure bad, foul stomach and constipation and so *help* to cure nearly every disease of mankind. They regulate, tone up and invigorate Stomach, Liver and Bowels.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average baldheaded man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

THE LAWLER-FRENCH SUIT.

The following is the text of the opinion handed down recently by Judge John A. Buchanan of the Court of Appeals in the case of Lawler et als. vs. French, &c., from the Corporation Court of this city:

The object of this suit was to enjoin the appellant, Lawler, from prosecuting an action of unlawful detainer to recover the possession of a house and lot purchased by him from the trustees in a deed of trust, executed to secure the payment of money loaned or advanced by a building and loan association to Robert W. French, one of its members, together with the dues and premiums on the borrower's stock, fines for the nonpayment of such dues and premiums, and all taxes and assessments on the trust property during the continuance of the advancement; to set aside the sale and conveyance made by the trustees; and to have an accounting between the association and the borrowing member. The court upon the hearing of the cause granted the relief prayed for, and from that decree this appeal was allowed.

The grounds stated in the bill for having the sale and conveyance made by the trustees set are, (1) That at the time of the sale the complainant was not three months in arrears in the payment of dues, fines, interest or instalments payable to the association; (2) That the sale was ordered without notice to him or demand upon him for the payment of any dues, fines or interest and was in fraud of his rights and contrary to the covenants and terms of the deed of trust; (3) That there were only four persons present at the sale besides the inmates of his house; (4) That his sister-in-law was present at the sale and instructed and directed a friend who was near her to make a bid in excess of the price at which the property was knocked off, which she thought had been communicated to the auctioneer, but by some mistake or misunderstanding was not cried; (5) That the price at which the house and lot were sold was grossly inadequate, and a fraud upon the complainant's rights, as the property was worth more than double the amount for which it was sold; (6) That the complainant believes and charges that there was fraud and collusion between the purchaser and the trustees, both conniving at the sale at small figures, and although the complainant protested against the sale and offered to reimburse the purchaser, he declined to accept the money he paid for the property and that the whole transaction so far as the purchaser and the trustees were concerned was concluded in less than two days after the sale.

The trustees and purchaser demurred to and answered the bill. In their answers they deny all the material allegations relied on as grounds for setting aside the sale and conveyance except the statement in the bill that the complainant was not three months in arrears on his monthly dues, fines, interest or instalments. While the answers of the trustees admit that the complainant was not three months in arrears on account of his dues, etc., they aver that he had not paid the taxes upon the property for several years, and that immediately prior to advertising the property for sale by the trustees the building association had been required to pay and did pay the said taxes and assessments, amounting to the sum of $398.54, which the complainant, although often requested, had refused to refund. The trustees further state in their answer that after the sale and conveyance sought to be set aside the said French had ratified the sale by giving an order upon them for the balance of the proceeds of sale after satisfying the debt secured by the trust deed, and that they paid over the same to the assignee and had settled their accounts before the commissioner of accounts.

The complainant failed to prove the material allegations of his bill. There is not the slightest evidence of fraud or collusion on the part of the trustees and the purchaser. Although there were but few persons present at the sale, it was advertised in the manner prescribed by the trust deed in a newspaper of the city, of large circulation. The auctioneer bid on the property for the association a sum in excess of its debt, which was more than another person who had gone there to bid was willing to give for it. It was sold to the purchaser, Lawler, as the highest and best bidder. There was nothing in the condition of the weather to prevent persons from attending the sale, so far as the record shows. While the proof shows that the house and lot cost much more than they were sold for, it further appears that their location is a very undesirable one, and that such residential property in that part of the city does not sell for anything like its original cost. It is by no means clear that the property, if offered for sale again would sell for much, if any, more than the price at which it did sell, at least there is no such inadequacy of price shown as would justify the court in setting aside the sale on that ground.

The clear preponderance of evidence is, that the sister-in-law of the appellee, French, who was present at the sale, did not bid or authorize any one else to bid for her.

The allegation of the bill, that Mr. French, who was present at the sale, protested against the sale, is not only not sustained by the proof, but after the sale he assigned to a Mr. Andrews, one of his creditors, so much of his interest in the proceeds of the sale as was necessary to pay that creditor's debt. It is true that he and his assignee testify that the order on the trustees was not understood to be an assignment, but was given merely to secure the creditor, and that the paper was not intended to be a ratification of the sale. The conduct of both complainant and the assignee is in direct conflict with this contention and in accordance with the plain provisions of the assignment, which was written by an attorney and acknowledged, before a notary, for when the trustees pursuant to the terms of the assignment, paid the money to the assignee he received it without any claim that the order did not entitle him to receive the money but was a mere security for the debt; and Mr. French, himself, after the assignment had been given, made an effort to collect a part of the said proceeds from the trustees, and when shown his assignment to Mr. Andrews he said he had forgotten all about it.

The contention of Mr. French that the trustees in the deed of trust advertised and made sale of the property before there had been any breach of the bond for the money loaned, or the deed of trust securing the same, is not borne out by the record. By the terms of the trust the by-laws of the association of which the complainant was a member (Art. IX, sec. 6) expressly provide that "If any person who has received an advance neglects to pay interest, dues or monthly payments thereon for a period of three months from the time the same shall be due, or if he neglects to pay his insurance or taxes within ten days after they fall due, or to perform any condition or requirement contained in the obligation or security for such advance, then the whole principal mentioned in the mortgage, note or bond shall at once become due and payable without further notice, and proceedings may be commenced forthwith to foreclose said mortgage or to collect said bond or note, in such manner as the law directs, or as the board of directors may deem best for the interests of the association."

When the sale was advertised, the complainant had failed to pay his taxes for several years, and they had been paid by the association. This failure to pay his taxes was a violation of his contract with the association and gave it the right to have the property sold. The fact that the association had not earlier exercised that right was not a waiver of the right to have it sold for their nonpayment.

Nether does the evidence sustain the contention that the association had agreed, when Mr. French paid up his other dues, to give him a longer time within which to pay his taxes than was given.

The appellee, French, asserts in his brief that the trustees made the sale without any request to them in writing by the building association and their sale was therefore an unlawful exercise of the powers conferred upon them by the deed of trust. He further contends in his brief that the conveyance under which the sale was made was in fact a mortgage, and not a deed of trust, and that he is entitled to redeem the property. The ground upon which it is claimed that the conveyance is a mortgage, although in form a deed of trust, is that one of the trustees was a stockholder and an officer in the building association.

Neither of these contentions were made in the bill and no facts alleged upon which they can be based. These questions not having been put in issue by the pleading cannot be considered by the court.

Without discussing further the grounds relied on for the relief sought, it is sufficient to say that we are of opinion that the case made did not warrant the court in setting aside the sale. Its decree must, therefore, be reversed, the injunction dissolved and the bill dismissed.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, OCT. 4, 1905.

JAMES HAZEN HYDE, the young man whose idiosyncrasies first drew public attention to the Equitable Life Assurance Society, resulting in the exposure of conditions in the big life companies which have startled the country, will refuse to testify before the New York legislative investigation committee now in session. In behalf of policy holders of the New York life insurance companies, W. H. Russell yesterday asked Attorney General Mayer for permission to sue the officers of that company for the restitution of moneys contributed to campaign funds, declaring that such legal action would be more direct and effective than a suit brought by the State. The prosecution aims to compel the delinquent officers to account for their misuse of funds. Hyde's refusal to testify is attributed to the fact that a score of prominent officers of the Equitable, Mutual and New York life companies, while on the stand, under the merciless questioning of counsel, have admitted some of the amazing operations of high finance in the insurance world. As all the disclosures will be touched by pending litigation, Hyde's attitude is a virtual defiance of the committee. The request for permission to sue the officers of the company should certainly be granted by the court.

A COTEMPORARY advocates an appropriation by Cougress to pay for the necessary expenses of the President's pilgrimages "on the country's errands and his own." The President's salary is insufficient for his manifold touring occasions, and he finds it awkward to ask the railroad companies for favors they are practically forbidden to grant. Should the suggestion find favor at the hands of Congress it would prove a great relief to the President and to some of the railway companies, but the question is sure to be raised of the propriety of the use of the public money for electioneering peregrinations. Better raise the President's salary, if need be, and let him pay for his larks out of his own pocket. Times have changed. In the earlier history of the republic, occupants of the White House lived in a sensible and conservative manner. There was nothing savoring of luxurious traveling in those days. Now there is much suggestion of royalty, and the most seems to be made of the changed order of things.

CHEAP CANDY claimed another victim yesterday in New York, when Arthur Blatz, nine years old, died in great agony after eating a quantity of penny sweetmeats. He was probably poisoned by cheap coloring matter in the candy, which has caused the death of many children in New York and other cities in the last year. Attention has several times been called by the Gazette to the cheap productions in the shape of candy sold to innocent children. Parents should exercise the greatest scrutiny in examining the cheap candies obtained from neighborhood stores, as there is every reason to believe that quantities of the dangerous articles come to Alexandria.

PITTSBURG, PA., is in a state of terror, caused by the frequent robberies, burglaries, hold-ups and murders that have been committed in the last few days. The police seem to have lost all control, crimes of all kinds are of hourly occurrence, and people hesitate about going on the streets at night, and are afraid even to remain in their homes. Alexander Wallace, Superintendent of Police, says that it will require at least 400 additional men to free the city of present conditions. The entire county seems to be overrun with the thugs. The rise of lawlessness is a serious phase of the conditions of the present day, and in several of the larger cities crime is on a steady increase.

A MAN was arrested in Milwaukee a few days ago charged with wifebeating. The prisoner in his defense said his wife had been feeding him on tar soap which was the cause of the troubling of the waters. The victim when called upon to give details said:

It was last Sunday. I thought the coffee had a rich, juicy flavor, and there was a peculiar little taste about it that I couldn't quite place. I didn't really know what was the matter with the coffee until the soap all turned to lather, after I had swallowed it, and the suds started to ooze up out of my mouth. I swelled up so that I couldn't wear anything but an old bathrobe.

The judge suspended sentence.

PRESIDENT ROOSEVELT'S fight for railway rate legislation is to be carried into the Ohio campaign, and the voters of that State are to have a chance to judge between the advocacy of railroad privileges by Senator Foraker and the policy of federal regulation which the President has inaugurated. Secretary Taft will present the issue to the Ohio people as the spokesman of the administration.

M. GRANDIDIER, a member of the French Institute, discredits the recent statement of a German steamship captain that the Gulf Stream is deviating from its course. He thinks such a phenomenon is scientifically impossible without a frightful cataclysm. Moreover, if the stream had deviated, a change in the temperature of the water would have been observed.

DR. J. M. BUCKLEY, editor of the Christian Advocate (Methodist), has aroused considerable discussion in the daily as well as the religious press by his recent declaration that "a clergyman has no right to make his congregation laugh, and to do so is irreverence." Many will agree with Dr. Buckley that the pulpit is no place for buffoonrey.

THE railroad Senators have begun their fight against the regulation of rates. After bringing that to a triumphant conclusion, the New York Tribune suggests that "they're going to turn the Gulf Stream southeast by east."

From Washington.

[Correspondence of the Alexandria Gazette.]
Washington, D. C., Oct. 4.

Senator Martin, of Virginia, accompanied by a delegation from Petersburg, called on President Roosevelt this morning to invite him to attend the reunion of the Confederate Veterans' Association on October 25, 26, and 27, the anniversary of the Battle of the Crater, when the Confederate battle flags, recently returned, will be distributed to their old commands. As the President had already arranged for the dates in question, which will be devoted to Little Rock, New Orleans and the return to Washington, the invitation had to be declined. Gov. Johnson, of Alabama, called to discuss the programme for the various dates in Alabama. There was also a delegation from Birmingham to request that he spend more than the two hours allotted to Birmingham in that city.

Congressman Landis, of Indiana, a member of the Congressional committee which is about to meet in New York under the chairmanship of Senator T. C. Platt to investigate the possibilities of greater economy in the government's printing bills, called on the President today to discuss the question with him. He took advantage of the opportunity to introduce his son.

The marriage of Miss Mabel Clare Money, daughter of Senator Money, and who recently christened the battleship Mississippi at Philadelphia, to Dr. William Whitney Kitchen, of Buffalo, will take place at the Church of the Covenant in this city this evening at 6 o'clock. Mrs. Tom Hall, of New York, will be Miss Money's only attendant, Miss Money having performed a similar function for Mrs. Hall, then Miss Martha Baird, three years ago. Only the immediate relatives of the two young people will be present at the wedding supper following the ceremony.

To another of his callers President Roosevelt today made it clear that he has not changed front in the slightest degree on railroad rate legislation. "The country will so understand it when I put my message to Congress in December," he said to Representative Prince, of Illinois, who also discussed the subject with him.

President Roosevelt today told one of his visitors that he had decided to appoint Oscar J. Ricketts permanently to the position of public printer. He is of the opinion that the condition of affairs on the big printery calls for the selection of a man who has not been connected with their administration in the past.

President Roosevelt today, as a result of an investigation by the Civil Service Commission, ordered Capt. J. E. B. Stuart, collector of the port at Newpot News, Virginia, to restore to their old possessions two of the employees of the office whom Stuart had reduced, and to reinstate, if necessary for the work of the office, four men whom he had discharged. It was alleged that Stuart had made these changes because the men were democrats.

Congressman Butler, of Pennsylvania, a member of the House committee on naval affairs, talked with the President today about the naval programme for the next Congress. Mr. Butler says that he favors the construction of one great battleship of 18,000 tons, and a gradual substitution of big ships for the smaller and nearly obsolete types now in the American navy. He says that there has been no agreement as yet as regards the programme.

Owing to the fact that there are a few additional cases of diptheria at the Naval Academy, and in order to take the utmost precaution against the spread of the disease, it has been decided to extend the leave granted to the upper classes until October 14th, on which date the Academy will be opened.

The discussion of land frauds again occupied the attention of President Roosevelt for some time today. He took up the subject with Secretary of the Interior Hitchcock and Land Commissioner Richards. Their report was with reference to developments in Oregon.

J. C. Thompson, one of the republican referees in Alabama, after a conference with the President today announced that P. M. Long, of Cordova, had been agreed upon for U. S. Marshall for the northern district of Alabama, and Gen. R. D. Johnston, a former general in the Confederate army, for register of the land office at Montgomery.

The Japanese legation has received a dispatch announcing that the privy council of the Empire, to which body the peace treaty between Russia and Japan has been referred for consideration, has unanimously reported in favor of its ratification. It is presumed that the Emperor will formally ratify the document within the next few days. According to the terms of the treaty itself telegraphic notification of the ratification will be exchanged through the American Ambassador in St. Petersburg and the French Minister at Tokio. As soon as this is done the armistice now existing will end and peace will actually be declared. The withdrawal of the hostile armies in Manchuria will then begin.

Congressman Townsend, of Michigan, one of the authors of the Esch-Townsend railroad rate bill which passed the House last session, was President Roosevelt's most interesting caller today. He came to talk with the President about railroad legislation and about the necessity of making some changes in the bill as it passed last year prior to its submission to the next Congress. Congressman Esch, of Wisconsin, has written to the President that he would not be here to see him, but that Mr. Townsend and he are in full accord on the subject. The President asked Mr. Townsend to call again at 2:30 tomorrow afternoon when the subject will be gone into in detail. "The President introduced his conversation this morning with the remark that he was in dead earnest about this question," said Mr. Townsend, as he left the White House today.

Baron Rosen, the Russian Ambassador, and Mr. Takahira, the Japanese Minister, two of the special peace envoys who assisted in the preparation of the treaty of peace at Portsmouth, called at the State Department this morning for the purpose of discussing certain preliminaries with regard to the exchange of ratifications of that treaty. It will be necessary, in view of the fact that this exchange is to take place at the White House in this city, for both the Czar and the Emperor of Japan to appoint some one as their special plenipotentiary to represent them in effecting the exchange. The call of the diplomats this morning was to obtain from the State Department a copy of a document containing similar plenary powers, extended in some prior case, so that it might be used as a model in the present instance. They saw Assistant Secretary of State Adee who procured for them the plenary power given to the Russian Ambassador in the case of the exchange of ratifications of the extradition treaty between Russia and the United States. No suggestion was made as to when the exchange of ratifications of the Russo-Japanese peace treaty will take place. It is expected, however, that this will not take place until late in December or possibly early in the New Year.

Now that John F. Gaynor and Benjamin D. Greene are about to be brought to this country from Montreal with the sanction of the Canadian authorities, and after a costly legal fight extending over a period of five years, the government intends to push their case to trial at the earliest possible moment. The trial, which will be held at Savannah in the United States Court, promises to be one of the most interesting to which the government has been a party in recent years. The two men will be taken to Georgia without delay. Before Greene and Gaynor fled to Canada application for a warrant for their extradition to Georgia from New York had been favorably considered by Judge Addison Brown on the testimony adduced before United States Commissioner Shields in that city. In his opinion Judge Brown declared that it had been shown beyond question that the illegal profits on the contracts for river and harbor improvements in the Savannah district for a series of years had been continuously divided in thirds between Greene and Gaynor, the contractors, and Capt. Obelin M. Carter, the government officer in charge of the works, and that each third amounted to more than $700,000. When the two contractors disappeared from New York on the eve of their removal to Georgia they forfeited $40,000 bail each. One of the first steps to be taken by the government will be to increase the amount of bail. The indictment, which was returned by the federal grand jury at Savannah on December 8, 1899, charged embezzlement and conspiracy to defraud the government in connection with Captain Carter. The latter was tried by a military court and sentenced to five years in the Fort Leavenworth prison, his term having expired a few months ago. The government is now proceeding against Carter in the civil courts in Chicago to recover his share of the graft. Just how soon the Greene-Gaynor case will be brought to trial is not known. An effort will be made to have it set for some date during the fall term.

The illness of Mrs. William Loeb, wife of the secretary of the President, was today definitely diagnosed as typhoid fever. The patient is doing well and no complications have set in.

A warrant was sworn out at Amherst yesterday afternoon before Justice W. B. Henley by Frank Brown against Jim Watson, colored, the town barber, charging him with having assaulted his wife. Watson is the man to whose house the bloodhound Tige trailed three times Monday night. Watson has left the town.

St. Ann's Benevolent Society, of St. Peter's Cathedral, Richmond, has abandoned the movement for a reception on Thursday night in honor of the return of Bishop Van de Vyver from Europe. Cut Out Husband's Tongue.

Because he refused to retract alleged slanderous statements he had made about his wife, James Green's tongue was almost cut out in Kansas City, Mo., yesterday. He charged that he was held down by Charles Thomas, son-in-law of his former wife, while the former Mrs. Green tried to cut out his organ of speech with a sharp knife.

Green is now in a hospital, where the doctors are in doubt whether the almost severed tongue will knit together so as to enable Green again to talk.

The patient told his story of the attack upon him by writing it down with pen and ink while he lay in the police station, after being found bleeding in his home.

In the affidavit Green asserts that he was at work in his home when Mrs. Martha Fannon, his former wife, and Thomas entered. Green refused to retract anything he had said about the woman. At this point Thomas joined in the attack with a knife. After he and Green had been severely cut in numerous places, Thomas got Green down on the floor and held him. The enraged Thomas, according to Green's story, then handed the knife to Mrs. Fannon, and she made a desperate effort to cut out Green's tongue.

Mob Terrorizes Witnesses.

A howling, shooting mob of cowboys has held possession of Mullen, Nebraska, for 24 hours, and yesterday, in response to requests for protection, the United States Marshal answered that he would arrive today, while the Governor has telephoned the sheriff that he will order out a company of soldiers if necessary.

Recently the great cattle barons of Hooker county were indicted for illegally fencing government ranges and their fences were ordered down. The cases come to trial next week and fifty witnesses have been subpoenaed to appear against them. To intimidate these witnesses and force them to leave the county was the purpose of yesterday's riot.

The mob shot into the office of Lawyer Hamilton, who was charge of the government cases. His building was torn down and a notice posted that he would be killed unless he left town at once. Search was made for Hamilton in order that he might be lynched, but he escaped.

Residences of witnesses in town were partly wrecked. Then the mob separated into different bands and started through the country searching out all witnesses, spreading terror and doing violence wherever they went.

Mother of 17 Children Acquitted.

It required only about three seconds for a jury in the General Session Court in New York yesterday to bring in a verdict of not guilty in the cases of Mrs. Kate O'Brien and Annie O'Brien, her 18-year-old daughter, charged by Waverly J. Williams, a stalwart negro, with assault in the first degree. Anti-race suicide, according to Mrs. O'Brien, was the cause of her being in court as a defendant.

The mother, while on the witness stand, which she and her daughter took in their own behalf, acknowledged to 40 years and said she was the mother of 17 children, 10 of who were still living.

The woman's landlord objected to the large number of children living in his house and secured an order of dispossession. A city marshal, employing the negro as a porter, attempted to evict the family, when, it was testified, the negro insulted Miss O'Brien and the family attacked him. A dish was broken on Williams' head and he caused the arrest of the two women.

Fatally Wounded by Stranger.

Hugh Hamilton, a manufacturer, of Greensboro, Pa., was shot and fatally wounded in a crowded restaurant in the heart of Pittsburg yesterday by Anthony Oleson, a Swede, whom he had never seen before. Oleson is well dressed and appears to be educated. The police believe he is the man who on October 5, 1903, entered the White House and caused a commotion. The Minneapolis police have been asked for information regarding Oleson. When arrested Oleson carried a lot of anarchist literature, a photo of Eugene Debs, a ticket for Washington, D. C., and $72. Oleson admitted he was on his way to Washington to see the President. Hamilton had come to Pittsburg on business. At noon he entered the Hotel Wilson and sat down at a table. Oleson took a seat opsite and without a word drew a revolver and shot Hamilton. Hamilton ran to the street and into a jewelry store. Oleson followed and fired two more shots into Hamilton's body.

Bank Statements a Farce?

Charges that the statement of the condition of New York banks as issued weekly has become a farce, and that the action of the trust companies in extending large credits without maintaining adequate cash reserves constitutes a great danger, were made before the Clearing House Association yesterday by the president of the Corn Exchange Bank, William A. Nash. The Corn Exchange Bank is one of the most important financial institutions of New York city, having average deposits of about $40,000,000. Mr. Nash denounced the existing state of affairs by which trust companies, operating outside of the clearing house and not subject to its rules, are not obliged to maintain the cash reserve of one-fourth of the sum of deposits, which reserve is required of national banks by federal law and of other clearing-house banks by the rules of that institution.

Mr. Nash urged that measures be taken to bring the trust companies under the regulations of the clearing house.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by Gibson & Timberman and W. F. Creighton & Co.

McCall on the Stand.

New York, Oct. 4.—John A. McCall, President of the New York Life Insurance Company, was a witness today before the legislative investigation insurance committee. This is President McCall's second appearance on the stand. President McCall said before the meeting began that he would take issue with the Nevada Insurance Commissioner, revoking the license of the New York Life Insurance Company to do business in Nevada, if he and Mr. Perkins did not resign from the company. McCall said he proposed to bring the matter to the attention of the Attorney General of Nevada. President McCall spoke of the many mushroom life insurance companies organized in 1869, and 1870, in which extravagant salaries were paid, and many of them failed. "No life insurance companies in this State," said McCall, "so far as I know, ever failed because of insufficient premiums. They fail because of extravagant management, the destruction of real estate values inflated in boom times, and the incompetency of the officers and sometimes rascality." President McCall said he had been instrumental in 1889 in having a law passed preventing rebating.

President McCall said that every dollar of surplus, reserve or any sum in the New York Life had an assigned purpose. He said that he would made this statement because he had seen statements that the officers or directors could place the reserve sum from deferred dividends into any fund they pleased. He added further that the State law regulates all investments of reserve, as well as surplus. President McCall said that in making up the annual statement for the New York Life no attention was paid to the market price of assets but only to the cost price. He said that the assets of the company would be $8,000,000 greater if the market value was taken instead of the cost prices.

A College for Pickpockets.

New York, Oct. 4.—Public School No. 20, at Riverton and Eldridge streets, was until today thought to be a model institution for learning. Though teachers have been doing their duty in the matter of instruction the police have discovered that a course of crime was being zealously pursued in the basement. It was developed that a "college for ptckpockets" had been flourishing there for some time and that scores of proficient pickpockets have been graduated with great regularity. Within a week the two prize scholars of the school have been sentenced to six months in the Catholic Protectory and several others between eighteen and twenty, who were the faculty of the institution, have been given six months on Blackwell's Island. There were seven professors and demonstrators in the basement school, which had about twenty pupils. The boys were taught to open handbags and to pick pockets. Last summer there was a school teachers' convention in the city, and they visited the school. The pupils paraded for the visiting teachers and when they patted the youngsters on the head they were promptly relieved of their valuables.

Steamer Stranded.

Norfolk, Va., Oct. 4.—The Italian steamer Citta di Palermo, bound from Norfolk for New Orleans, under ballast, is stranded on Diamond Shoals, one mile from Cape Hatteras life saving station. The vessel struck at 9.30 o'clock last night, during thick weather. The crew of thirty men were landed in life boats this morning by the Cape Hatteras and Creed's Hill life savers. The vessel is lying in about 13 feet of water, and is apparently in good condition. The sea is smooth, and she is in no danger. Wrecking tugs have been sent for. Captain Messardo says the accident was due to his having mistaken Cape Hatteras light for the Diamond Shoals lightship.

In a State of Anarchy.

Vienna, Oct. 4.—Information received today from Brunn, Moravia, indicates that a state of anarchy prevails there, as the result of the clash between Czechs and Germans. Military forces are on guard at all the public buildings and soldiers are patrolling the streets. German citizens declare that their lives are not safe. The riots which occurred last night were quelled with difficulty. The mob completely demolished the principal cafe of Brunn, and guests in the place were compelled to flee for their lives.

Wreck on the B & O.

Connellsville, Pa., Oct. 4.—Train No. 1 on the Fairmont division of the Baltimore & Ohio railroad was wrecked at Round Bottom, 8 miles this side of Morgantown, this morning. The engine and two cars were ditched, and the balance of the train was derailed. No one was killed outright, although a number were badly injured. Wrecking crews started from here, and surgeons from Morgantown were dispatched to the scene.

A later dispatch says several train men and employers were hurt. There were about 20 passengers on the train, but all escaped with slight bruises.

The Great Northern Hold Up.

Seattle, Wash., Oct. 4.—Three of the men engaged in the Great Northern robbery have escaped to the dense woods where bandit Tracey so long eluded his pursuers. Posses will try to starve them out. In spite of the official statements that only $1,000 was secured by the robbers, it is generally believed here that the men secured $100,000. Of the amount said to have been secured $35,000 is said to have been Klondyke gold, and the balance paper on the way to small country banks.

The Situation in the Caucasus.

St. Petersburg, Oct. 4.—Dispatches from Tiflis say that conditions in the Caucasus are deplorable. Armenians are starving and are abandoning their homes because it is impossible for them to cultivate their land on account of the manner in which they are fired upon by Tartars. Tartars openly boast that they will burn the town of Shush, and the inhabitants are fleeing to escape the threatened massacre.

To Subsidize Steamship Lines.

London, Oct. 4.—Dispatches from Tokio state that the Japanese government proposes to increase the subsidies to steamship companies as soon as mail service is resumed. Straw Hat His Lightning Rod.

Waynesboro, Pa., Oct. 4.—During Monday night's storm a bolt of lightning struck at the home of Keller Creager, at Ringgold, just across the Maryland line. Descending into a room in which Creagor was standing it hit his straw hat, ran down the straw to above his left ear, then around the rim and down the side of his neck to the body, tearing the shirt collar; then to his right leg and great toe, which it split and tore off half his shoe. The hair above his ear was burned off and the skin scorched. Creager was found unconscious. When he recovered he did not know the nature of the accident. Neither his wife nor children were near him when he was struck.

New York Stock Market.

New York, Oct. 4.—All through the first hour trading was brisk and active, with an exceptionally urgent demand for many industrial stocks. Manassas Saloons.

Judge C. E. Nicol, whose court is in session, spent the entire day at Manassas yesterday in hearing applications for liquor license. There was a contest in every case except one, the Prince William Hotel. F. T. Morgan was recommended by the Council, but did not make application to the court for license. J. R. Morris, proprietor of the Curry Hotel, withdraw his application, leaving only four applications to be heard. The application of Wade Goodwin was refused, the court ruling that his place of business, which was just across the street from the postoffice, was not a suitable place.

Causes of Tuberculosis.

The International Tuberculosis Congress in Paris yesterday concluded that the most important predisposing causes of tuberculosis are alcoholism, overwork and overcrowing. The virulent nature of pulmonary consumption was generally recognized, opinions being expressed in favor of the isolation of patients. Dr. Mazyck P. Ravenel, reporter of the American section, contended that bovine tuberculosis had proved in a number of instances to be transmissible to human beings and that therefore any relaxation of precautions against it would be unwise.

May Build President a Train.

In view of the discussion which arises every time the President takes a journey over the propriety of his accepting special trains from the railroads free of cost, it is probable that Congress will be asked this winter to make an appropriation to provide a special train for the President, which shall be owned by the government and be placed at his disposal whenever he takes a trip on land, just as naval vessels and revenue cutters are placed at the disposal of the President, the members of his Cabinet and the assistant secretaries when they go to sea. It is also proposed that an appropriation be made for the operation of the train and for hauling it over different lines of railroad.

Such a train would probably cost in the neighborhood of $50,000, possibly less; and it is thought that an appropriation of $25,000 would be sufficient to pay the expenses of manning the train and hauling it on all the trips the President would take in a year. Such a provision by Congress would end the criticism constantly leveled at the President, and which has become rather embarassing in view of the struggle between the President and the railroads over the question of empowering the Interstate Commerce Commission to make rates.

The President is the only important official who does not have his traveling expenses paid by the government. If he paid the railroad what they exact from private persons for special trains he would spend almost his entire salary.

She is now 34.

Man Electrocuted.

While at work upon an electric light on Newark street, in Cleveland Park, Washington, yesterday afternoon about 4 o'clock, Sam Harbison, an employe of the Potomac Electric Lighting Company, was electrocuted by a live wire, which he was repairing, and died shortly after. Harbison was seated upon the top of a pole when he received the shock and was knocked forward by the force of the high voltage and thrown over the top of the pole, dangling there until he was rescued from his position by some citizens in the neighborhood by means of a rope. He showed little sign of life. He was removed to the Georgetown University Hospital, but died before reaching there. The police are unable to locate any relatives of the dead man. He had been working for the company only a short time. His address is unknown.

Assaulted a Passenger.

Vernon H. Kohn, a passenger on the steamer Norfolk, which left Washington at 6:30 o'clock yesterday evening, was assaulted and seriously injured by a negro deck hand named J. Hazel Brown shortly after the steamer left that city. It seems that Brown, for some reason, had entered the saloon and while there peered into a stateroom. The watchman of the steamer, who noticed the procedure, ordered him below. Brown left the saloon, procured a piece of iron pipe and soon returned with the evident intention of assaulting the watchman, but having met Mr. Kohn first, he, strange to say, began to use the piece of pipe on the unoffending passenger. The latter was struck on the back of the head and seriously injured before the negro was secured and disarmed by members of the crew. When the Norfolk reached her wharf at this place a telephone message was sent to the station house and Officer Roberts repaired hastily to the pier and took Brown in custody. Dr. Jones was summoned to render medical assistance to Mr. Kohn, and after his head had been dressed he was placed in a carriage and, escorted by Officers Henderson and Bettis, proceeded to the new union depot where he boarded a train for New York. It is said that Brown had been drinking and was probably using cocaine when he committed the assault. He was turned over to the authorities of the District of Columbia.

The Ladies' Missionary Society.

The ladies' missionary society of the Baltimore Conference which began its sessions in the M. E. Church South, Sunday last, adjourned sine die late yesterday afternoon. There was another large congregation in the church last night where religion services were held and interesting addresses delivered by members of the society. The meetings which have been held in this city during the past three days have been interesting and edifying, not only to the members of the organization, but to many others who have attended them. The members of the society have been highly pleased with their visit to Alexandria.

Among the resolutions passed last night by the society was one thanking the people of Alexandria for hospitality extended and the many acts of kindness to the members collectively and individually expressive of their appreciation of the Alexandria Gazette.

The following officers were elected: Mrs. A. W. Wilson, of Baltimore, president; Mrs. J. T. Williams, of Romney, vice-president; Miss Julia Hayes, of Baltimore, recording secretary; Miss Nina Wilson, of Baltimore, corresponding secretary; Miss Virginia Massey, of Front Royal, treasurer. The society will hold its next meeting at Winchester

Assaulted the Officer.

A white man, who was helplessly drunk, was picked up in the street yesterday evening by Officer Beach and locked up until he recovered from his debauch, after which he was liberated. Early this morning a message was received at the station house to the effect that a man was lying in the street in a drunken and helpless condition near the corner of Prince and Pitt streets. Officer Roberts proceeded to the point indicated and found it was the same man who was picked up yesterday by Officer Beach. The stranger was taken to the station house. He refused to give his name and when Mr. Roberts attempted to search him he attacked the officer. The latter soon subdued him and took letters from his pocket which were addressed to C. W. Waddey, Buena Vista, Va. He will be made to answer charges of drunkenness and assault tomorrow.

The Manassas Bank Robbers.

Edward Fitzpatrick, Frank Burns and William Smith, each with a string of aliases, were before Judge Waddill, in the United States District Court, in Richmond, yesterday, to answer to indictments brought against them by the grand jury of Alexandria last July for breaking into the bank in the town of Manassas. The cases were all nolle prossed and sent to the State court at Manassas. The government first took a hand in the case because its deposit vault in the bank had been looted. Each of the men is known to the police in all the big cities. They were arrested in Baltimore in a house where it is alleged a school of bankbreaking was being conducted. The men are grateful for treatment while in jail in Richmond.

New Ferry Steamer.

Mr. John Callahan, manager of the Norfolk and Washington Steamboat Company and of the new ferry line which the company purposes to operate between this city and Washington, has been notified by the Harlan and Hollingsworth Corporation of Wilmington, the builders of the new ferry boat Woodbury, that she will be fully completed and ready to leave Wilmington on Saturday, October 28, and Mr. Callahan states that she will make her inaugural trip on the ferry route in November. The steamer will arrive here some time Sunday, October 29, and on Monday she will take a party of invited guests from this city and Washington on a short run down the river to show her speed and good points.

Charges Against an Officer.

Policeman William E. Allen, who had been charged by his son-in-law, Johnson Hansborough, with drunkenness and assault, was arraigned before Mayor Paff last night. The accused was found guilty of assault and suspended for a period of ten days, but the charge of drunkenness was not sustained. The trouble had its origin in the domestic infelicity of Mr. and Mrs. Hansborough. Their troubles have on more than one occasion been aired in the Police Court recently.

Needs Attention.

The entrance to the market court from Market alley, near Fairfax street, is rendered repugnant by the sewer which drains the station house and the fish market. The effluvium which emanates from the traps at that point is almost unbearable and is likely to produce sickness. The place should be disinfected at once.

Personal.

Mr. J. Marshall Dobie is visiting relatives in Lynchburg.

Mr. and Mrs. J. F. Rider, of Washington, are the guests of Mrs. Alex. Slaymaker on Braddock Heights.

Mr. W. E. Faulconer, the well known Southern Railway dispatcher, who has been a resident of this city for eighteen years, moved his family Tuesday to Alexandria, where he will permanently reside. Mr. Faulconer's transfer was at his own request.—[Charlottesville Progress.

Mr. Frank Quinn, while making his rounds as letter carrier this morning, was badly bitten by a dog. He was attended by Dr. Gorman.

Col. F. L. Smith has returned from Lexington, where he went to attend a meeting of the Board of Visitors of the Virginia Military Institute. He says there is a fine corps of cadets at the institute this year.

Mr. J. Hanson Price continues quite sick at his home on Alfred street.

Dr. Llewellyn Powell, who has just completed his post graduate course in New York, has returned to his home in this city, where he intends practicing his profession.

Baron J. La Francisca, who has been stopping with Mr. J. A. Henderson, Lenox avenue, New York, formerly of this city, left for his home last week. Baron La Francisca is a prominent member of the Union Club and nephew of the Duchess Deveris. He comes from one of the noblest families of Naples.

Grace Church Concert.

The following well known names have been added to the programme for Thursday night: Mr. Harry Stevens, selection; Mrs. Thomas Hulfish, Arioso, from "The Death of Joan of Arc," by Bernberg; Mr. Wm. Scantlebury, jr., "Gypsy Jan," by Herbert; Miss Flora Bernheimer, "Happy Days," by A. Strelezki. Miss Steiner and Mrs. Carter have been requested to play the Seguidilla, by Holst, and will do so with the assistance of Misses C. Kemper, R. Crupper, M. Robertson, E. Dix, E. Carter, and H. Spofford.

Funeral.

The funeral of the late James F. Spaulsbury, who died suddenly in Richmond last Sunday night, took place at 10 o'clock this morning from No. 1212 King street. The services were conducted by Rev. Mr. Stump, of the M. E. Church South. Among the attendants at the funeral were a number of members of Alexandria-Washington and Andrew Jackson Lodges of Masons, the deceased having been a member of the fraternity. The following were the pallbearers: Messrs. R. H. Cox, C. H. Callahan, P. T. Harrington, C. T. Goods and A. E. Smoot, W. H. Charles.

Body Recovered.

The body of Stuart Cook, 40 years old, of Washington, was taken to his home in that city yesterday afternoon from Piscataway creek, at which place he was accidently drowned Monday night. Cook was a dredger in the employ of the Potomac Dredging Company. How he happened to fall into the water from the dredging machine is not known, but it is thought that in the dark he stumbled over a piece of timber. His comrades heard the splash in the water caused by his fall, but Cook had gone down before they could reach him.

The Episcopal High School.

The Episcopal High School, near this city, Dr. L. M. Blackford, principal, opened today with a full attendance, rather more than 100 boys as last year, and a full corps of instructors. A new building, which will improve, though not increase the accomodations of the school, is being erected but will not be ready for occupancy for some weeks. The boys in attendance are from all sections of the country.

A. L. I. Inspection.

The annual inspection of the Alexandria Light Infantry will be conducted in Armory Hall tonight at 8 o'clock by Col. Jo Lane Stern, assistant inspector general of the Virginia militia. Capt. P. J. Murphy, First Lieut. Windsor Demaine and Second Lieut. Samuel Robey, the officers of the infantry, hope that their command, which is Company G of the 70th Regiment, will make an excellent appearance at the inspection.

To Be Improved.

The members of Roberts Chapel, M. E. Church, are making arrangements for making material interior improvements to their edifice on south Washington street. They will in the near future give an entertainment in order to raise funds for the proposed work.

The Hospital.

Dr. M. D. Delaney has submitted to the managers of the Alexandria Hospital his report for the past four months. From the report it is shown that during that time there were 151 cases treated, 130 recovered, 9 improved and 8 died.

Neabsco Creek's Strange Bridge

An interesting engineering feat has been accomplished by the Washington Southern Railway in constructing a bridge across the backwater of the Potomac, known as Neabsco creek.

When piles sixty feet long were driven into the mud no bottom was found and it is said that the slime is 100 feet deep. Earth was dumped into the stream to make an embankment, but it "heaved" up on both sides for a distance of 250 feet.

It was finally determined to drive piles close together and build a bridge upon the piles, floating upright in the mud. It was a complete success, for so great is the grip of the mud upon the sides of the piles that the bridge is as stationary as though it were built upon granite. The idea was originated by the late Major E. T. D. Myers, president of the road.—[Manassas Journal.

Called to St. Louis.

The New York Herald of Monday has the following regarding a pastor so well known in this city: Dr. William C. Bitting, pastor of the Mount Morris Baptist Church, at Fifth avenue and One Hundred and Twenty-seventh street, has received a called to the Second Baptist Church of St. Louis. Dr. Bitting is one of the best known Baptist clergymen in New York, and has held his present charge for many years.

Seen at his home in the Hotel Winthrop, last night, he declined to say whether or not he had decided to accept the call, as thus far it had come to him only in the form of a telegram, and the official letter of invitation had not yet reached him.

The Typhoon in Manila.

Advices from Manila say that the inter-island steamer Canlabenia, of 1,097 tons, was sunk in the recent typhoon off Ticao Island, one of the Visayan group. It is thought all on board were lost. She carried 5 Americans, 1 Spaniard and 11 natives and Chinese passengers and a crew of 97 men and officers. The island steamer Carmen is also reported lost. Details are lacking. The estimated loss in the hemp-growing districts from the ravages of the typhoon is $5,000,000 in gold. The hemp in warehouses ready for shipment is also a total loss. The plantations are impaired to such an extent that it will take a year to get them in condition again. Reports now coming in from the south indicate a greater loss of life and property than was at first estimated. On Ticao Island the beach is strewn with dead bodies, among them those of some Americans, in such a condition as to be unrecognizable.

A Mystery Cleared Up.

The mystery of the disappearance of $11,080 a year ago from a crock, in which William Schmitz, an aged painter had buried the savings of years in the cellar under his home, at 741 O'Farrell street, San Francisco, has been cleared by the confession of his daughter, Miss Louisa Schmitz, and the arrest of Edward Cordero, to whom she betrayed the hoarding place as a result of her infatuation and his threats. Miss Schmitz left her home sometime ago, when her parents objected to the attentions of Cordero upon discovering that he was a married man. She says that she disclosed to him the hiding place of her father's gold under stress of threats against her life.

Cordero, she says, finally began to abuse her, and she has returned to her father's home and made a clean breast of the whole affair. Cordero has been arrested and is now in jail pending an investigation into his connection with the affair.

Pays a Fine of $22,000.

The United States Court, before which over 90 cases involving revenue officers are to be tried at this term, is in session at Greensboro, N. C.

The most important case disposed of so far was that against D. L. Arey, a wealthy Salisbury (N. C.) distiller, who was sentenced to pay a fine of $22,000 and serve a sentence of three months in prison, he having been convicted at the June term of court in Charlotte. Arey voluntarily surrendered himself and left for Salisbury to serve his sentence. He took with him $22,000, the amount of the judgment against him, and will also pay tomorrow a fine of $200 and costs, amounting to over $1,600, making altogether over $24,000 which this defendant pays to the Government.

Willard for Brigadier General.

A new phase in the military situation in the State is the advocacy of the name of Capt. Joseph E. Willard, former lieutenant governor, and at present corporation commissioner, for brigadier general when the three regiments now in the State are formed into a brigade. The Governor has not as yet intimated that he will form a brigade, and the three colonels of the three regiments have at various times intimated that they are not seeking the promotion, which makes the choosing of an outsider more that a possibility. Col. A. M. Higgins, of Norfolk, commanding the Seventy-first Regiment, is the ranking colonel, while Col. George Wayne Anderson, of Richmond, commanding the Seventieth, and Col. Robert F. Leedy, of Staunton, commanding the Seventy-second, rank next, in the order in which they are named. The choice of a brigadier would fall on the colonels and majors of the three regiments.

FRANCE AND VENEZUELA.

Memoranda have been exchanged between the French Ambassador and the State Department at Washington regarding France's displeasure at Venezuela's refusal further to treat with her Charge d' Affaires, M. Taigny, at Caraca

This has completed a general interchange of views, the French government setting forth that a point of national honor has thus been raised, and Secretary Root replying that the policy of the United States is to interpose no objections to such steps as European governments may take in defense of the rights of their citizens and the dignity of representatives so long as the principles of the Monroe doctrine are not infringed.

France has already called upon Venezuela to retract the last paragraph of the note in which M. Taigny was told the Venezuela government could no longer treat with him. This refusal, Venezuela set forth, was due to the offensive note of protest made by M. Taigny against the course of the Venezuela government in reference to the French Cable Company. The Venezuela contention is that M. Taigny made this protest after he knew that new commissioners of the French Cable Company were coming to take up the case of the company with Venezuela.

Fears are entertained in Washington that Venezuela will decline to retract. If she does the situation will be rendered much more serious, for France has declared to the United States government and otherwise her firm intention not only to protect the rights of the French Cable Company, the concession of which has been annulled, but also to maintain the dignity of her diplomatic representative.

Mr. Veloz-Goiticos, the Venezuela Charge d'Affaires, called at the State Department yesterday and had a conference with Assistant Secretary Loomis.

France has within recent years had disagreeable experiences in trying to discipline smaller countries. The punitive expedition invariably costs more than it gains, unless the maintenance of natural dignity may be counted profit. It is usually unpopular at home, and, although not constituting much of a drain upon the military resources, it brings the government close to complications with others and hampers foreign policy.

With the three cruisers which fly the tri-color in American waters France could make a formidable demonstration against Venezuela. It is considered futile, however, to bombard La Guaira, for the town is composed largely of neutral foreigners. To reach the capital a war of invasion would be necessary.

Could Not be Better.

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy has won for it a wide reputation and many people throughout the country will agree with Mr. Chas. W. Mattison, of Milford, Va., who says: "It works like magic, and is the best preparation I know of. It couldn't be any better." He had a serious attack of dysentery and was advised to try a bottle of this remedy, which he did, with the result that immediate relief was obtained. For sale by Gibson & Timberman and W. F. Creighton & Co.

Faith Not Necessary.

You may be just as skeptical and pessimistic as you please, Kodol will digest what you eat whether you eat or not. You can put your food in a bowl, pour a little Kodol Dyspepsia Cure on it and it will digest it the same as it will in your stomach. It can't help but cure Indigestion and Dyspepsia. It is curing hunereds and thousands—some had faith and some didn't. Kodol will cure you if medicine can cure you, whether you have faith in it or not. Sold by W. F. Creighton, & Co. 401 King street.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Frightful Suffering Relieved

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at E. S. Leadbeater & Sons, drugstore, guaranteed.

A Pleasure To All.

No Pill is as pleasant and positive as De Witt's Little Early Risers. These Famous Little Pills are so mild and effective that children, delicate ladies and weak people enjoy their cleansing effect, while strong people say they are the best liver pills sold. Sold by W. Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, **how do you know what you are getting?** Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in

Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory.
